Title: Air Taxi and Commercial Operator Airport Activity Survey

Form Numbers: FAA Form 1800-31.

Type of Review: Renewal of an information collection.

Background: Enplanement data collected from air taxi and commercial operators are required for the calculation of air carrier airport sponsor apportionments as specified by the Airport Improvement Program (AIP), and 49 U.S.C. part A, Air Commerce Safety, and part B, Airport Development and Noise. The data collected serves as the only source of data for charter and nonscheduled passenger data by Part 135 operators (air taxis). Respondents: Approximately 300 Part 135 operators.

Frequency: Information is collected annually.

Estimated Average Burden per Response: 1.5 hours.

Estimated Total Annual Burden: 450 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including 1. Whether the proposed collection of information is necessary for FAA's performance; 2. The accuracy of the estimated burden; 3. Ways for FAA to enhance the quality, utility and clarity of the information collection; and 4. Ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.
